EDUCATION

San Diego State University   *Graduation: May 2021*
B.S. in Computer Science
GPA: 3.31, Major GPA: 3.95
Coursework: Algorithms & Their Analysis, Data Structures, Unix System Admin, Computer Architecture, Programming Languages, Machine Org & Assembly, Intermediate Programming

PROJECTS

Android To-do List
· Gave the user functionality to easily add items to the list, edit previously added items, and delete them through a long touch
· Used a RecyclerView in order to elegantly display items and use modern tools of the Android SDK

DNS Resolver
· Scraped IP addresses and URLs from local router, hashing URLs and adding these into a self-made HashMap
· User entered an IP and returned the connected host name through the resolved IP

Restaurant Finder
· Consumed Yelp API and used the API's various methods in order to generate a list for the user
· Collected user's set of preferences and returned an array of restaurants based on what was entered

Portfolio Website
· Created a website using HTML5 and CSS3 to show off my projects

EXPERIENCE

BLVD63   July 2019 - August 2019
Community Assistant   *San Diego, CA*
· Assisted management by leading small teams to carry out tasks in a timely manner
· Cared to residents' needs while also working on my assigned task
· Readied 900 apartment units in 22 days for the new tenants

CLUBS

Cyber Defense Team
· Work in a team environment to learn new technologies and use them in simulated environments
· Learning the latest topics in computer security for both attacking and defending
· Compete in various cyber defense competitions which strengthen my skills

TECHNICAL

Skills
· Proficient: Java
· Previous Experience: JavaScript, React.js, MySQL, Python, HTML5, CSS3
· Tools: Eclipse, Visual Studio Code, IntelliJ
